4. Logistics Orientation

We are planning to conduct a one-day Logistics Orientation for all Logistics careerists returning from overseas. In order to accommodate the 35 returnees, we will schedule three sessions during the next $2\frac{1}{2}$ months. Each division and staff in OL will participate in this orientation program.

5. Other Training

We are exploring with OTR, the possibility of presenting approximately one and one-half days instruction of Logistics subjects in the OTR-conducted "Budget and Finance Procedures Course." The students in this course are usually Administrative Assistants preparing for overseas assignments to small stations. These administrative people will be responsible for Logistics activities at these small stations, and we feel that by providing instruction in the fields of Supply, Transportation, Procurement and Real Estate, we can better equip them to perform more effectively.
